Subject: Amphenol Soil Gas Sampling Work Plan

Hello Joe,

Per our discussion yesterday and my discussion with Brad Gentry last week, EPA is granting a two-week extension for submitting the soil gas work plan component of the vapor intrusion investigation. EPA considers the indoor air investigation of the additional priority homes to be a priority and Amphenol is occupied with that work at this time.

Please submit the soil gas work plan for EPA review and approval by October 1, 2018.

Please call me with any questions.

Carolyn
